The Universal Principles of Design

William Lidwell, Kritina Holden, Jill Butler

Universal Principles of Design is the first cross-disciplinary reference of design. Richly illustrated and easy to navigate, this book pairs clear explanations of the design concepts featured with visual examples of the concepts applied in practice. From the "80/20 Rule" to "Chunking," from "Baby-Face Bias" to "Ockham's Razor," and from "Self-Similarity" to "Storytelling," readers will expand their knowledge of 125 important and thought-provoking design concepts.

This landmark reference has become the standard for designers, engineers, architects, and students who seek to broaden and improve their design expertise. This new edition includes revisions, updates, and twenty-five new principles.

Deconstructing Product Design

William Lidwell, Gerry Manacsa

Deconstructing Product Design engages readers in a process of critically analyzing a diverse collection of 100 innovative products, from well-known classics to contemporary objects of desire. The goal is to support critical thinking about design, facilitate discovery of patterns of success (and failure) across products, and enable readers to apply the lessons learned to their own design work.
